NAME, IMAGE AND LIKENESS INSURANCE FOR BOOSTERS & COLLECTIVES

OUR FULL-SUITE SOLUTIONS

As NIL agreements continue to grow in size and complexity, athletic departments and affiliated collectives face meaningful financial risk when student-athletes are injured or medically unable to fulfill their contractual NIL obligations.

In collaboration with Lloyd's of London, World Insurance Associates has developed a bespoke insurance solution designed to protect NIL investments by providing financial continuity solely when NIL obligations are impacted by a covered athletic injury or medical condition, while supporting institutional budget certainty and compliance. This structure enables programs and collectives to insure NIL obligations funded through institutional revenue-sharing allocations, donor contributions, and other approved collective funding sources, while coverage remains strictly limited to losses arising from covered athletic or medical injuries.

INJURY & ILLNESS COVERAGE

- If an insured athlete becomes medically unable to participate in team activities or competition due to a covered injury or medical condition, as certified by a licensed physician, the policy responds to protect the program or collective's financial commitment.
- Upon a valid claim, the insurance reimburses the athletic department or collective for the portion of NIL compensation still owed under the contract as a direct result of the covered injury or medical condition, subject to the agreed elimination period and policy terms.

COVERAGE LIMITATIONS

- This coverage is designed exclusively to address injury-related NIL risk and does not respond to transfers, performance-related decisions, disciplinary actions, eligibility issues, or contract termination unrelated to a covered medical injury.

POLICIES QUOTED BASED ON:

- ❑ Schedule of athletes and insured NIL values
- ❑ NIL contracts, including payment structure and injury provisions
- ❑ Athlete year of eligibility

POLICY STRUCTURE

- The coverage may be written on a single-athlete or group basis and is designed to protect total NIL exposure across all contracted athletes against covered injury-related risk only.
- The program provides a shared aggregate limit, creating a pooled reserve to cover eligible losses arising from covered on-field, on-court, or medical injuries during the policy term. Coverage is triggered based on time missed due to a covered injury or illness and may mirror NIL contract terms and payment schedules on a reducing basis.
